

# LEITZ VENICE LPL MOUNT and LPL TO PL ADAPTER

The Leitz LPL Mount for Sony VENICE, VENICE 2 and BURANO cameras offers more flexibility and compatibility than any other mount in the market. It is the only LPL mount for Sony professional cameras designed to accommodate every LPL lens, including Leitz HUGO and ARRI Signature Primes/Zooms with V Impression filters. No other VENICE/BURANO LPL mount is compatible with these lenses.

---

## LEITZ VENICE LPL MOUNT

The LPL Mount from Leitz is strong, smart and reliable. It is made of high-grade aluminum and steel with a stainless steel lens mount and connects securely to the camera body with six captive screws. Other solutions that use the camera's E mount cannot adequately support the weight of professional LPL mount lenses.

---

## LPL TO PL MOUNT ADAPTER

Productions needing to quickly and securely switch between LPL and PL lens formats can do so by adding the Leitz LPL to PL Mount Adapter. This adapter will be a requirement for many productions and is designed for flawless compatibility for quick lens changes.

---

## LENS METADATA

The Leitz LPL Mount, as well as the LPL to PL Mount Adapter, each feature contacts for /i and ARRI LDS-2 metadata so lens information continues to be passed seamlessly to the camera.
