

LEITZ LPL MOUNT for SONY VENICE EXTENSION SYSTEM MINI and LEITZ LPL TO PL ADAPTER

The Leitz LPL Mount for Sony VENICE Extension System Mini brings incredible versatility to this compact and flexible new camera system. Designed to accommodate every LPL lens in the market, including vintage rangefinder and lenses using rear filters, the Leitz LPL Mount means never having to change mounts again.

LEITZ LPL MOUNT for SONY VENICE EXTENSION SYSTEM MINI

The Leitz LPL Mount is strong, smart and reliable. It is made of high-grade aluminum and steel with a stainless steel lens mount and connects securely to the camera body with four screws, protecting the E mount underneath and providing rigorous support for the weight of professional lenses.

LPL TO PL MOUNT ADAPTER

No owner or rental house wants to change mounts between productions. And, no production wants to unscrew mounts between shots. The Leitz LPL to PL Mount Adapter solves this problem. Once you attach the Leitz LPL for Sony VENICE Extension System Mini you'll never need to remove it again. It provides maximum flexibility in the smallest size possible. This adapter also works with the Leitz LPL Mount for VENICE/BURANO.

LENS METADATA

The Leitz LPL Mount, as well as the LPL to PL Mount Adapter, each feature contacts for /i metadata so lens information passes seamlessly to the camera.
