

LEITZ M MOUNT for SONY Venice

Just put the LEITZ M MOUNT for Sony Venice on your Sony Venice camera or Sony Rialto extension head (later Leitz M MOUNT) and you are ready to roll. No other modification on the camera needed.

LENS COMPATIBILITY

The Leitz M MOUNT is designed specifically to work with the Leitz M 0.8 lenses from Ernst Leitz Wetzlar GmbH.

Other M Mount lenses vary as to how far the rear elements extend beyond the mount and even with the camera modification some other lenses may extend too far and damage the OLPF of the camera as well as the lens being used.

While other M Mount lenses may be usable with this mount, the responsibility for testing and confirming usability rests solely on the

user and caution is advised. Ernst Leitz Wetzlar GmbH is not responsible for the use of any M Mount lenses from any manufacturer outside of the Leitz M 0.8 lens series.

Now enjoy creating your own unique imagery by combining the iconic look of Leica M 0.8 cine lenses with the SONY Venice camera.
